Foundation Formula
Section 2.015

Budget Book Page 41

The state's education funding formula was changed in SB 287 (2005) with the changes becoming effective in FY 2007. The previous formula was a tax rate driven formula which provided a certain amount of money per student for each penny of property tax rate of the school district. The formula adopted in SB 287 (2005) follows a student needs philosophy. The new formula is weighted average daily attendance x state adequacy target x dollar value modifier – local effort = state funding.

Legal Basis: 163.031 RSMo.

A portion of the Independent Living Centers' funding was switched from GR to the ILC Fund (0284) in SFY14 because the fund had accumulated excess revenues. Projected revenues supporting the ILC Fund will not be sufficient to support the current funding level established. This decision item restores GR funding to the SFY13 level and reduces the ILC Fund obligations to an amount supported by the revenues to the fund.

The High Need Fund continues to grow approximately 7-10% in requests for reimbursement per year. This is due to an increase in the number of students claimed, an increase in awareness and technical assistance related to the fund (increase in the number of schools submitting applications), an increase to the overall cost of special education services, and a decrease in federal funding due to sequestration.
